**STATEMENT OF FACTS SUPPORTING PETITION TO WITHDRAW
HOLDING OF ABANDONMENT ACCORDING TO 37 CFR § 1.181(a)**

Dear Sir:

As attorney of record, I, Mark R. Hull, have first-hand knowledge of the facts supporting this Petition. Abandonment of the above-identified application was based on failure to receive an Office Action. On April 27, 2005, a routine Private PAIR search was completed by our office. The search revealed that a Restriction Requirement corresponding to the above-identified patent application was mailed on January 27, 2005 with a one month response period set for February 27, 2005. Immediately upon discovery, the Office Action was printed and stamped "Docketed April 27, 2005" by our office, as attached hereto as Exhibit A. A search of the file jacket and docket records indicate that the original Office Action, mailed on January 27, 2005 was not received by our office.

It is the practice and policy of Calfee, Halter & Griswold LLP that all correspondence addressed to any member of the Intellectual Property Practice Group from whatever source including clients and/or the U.S. Patent and Trademark Office be delivered to the docket department initially for opening and review to determine if, in fact, a response is due to the U.S. Patent and Trademark Office. After reviewing the correspondence and making noted entries in the computerized docket system as required and also noting such entries on any correspondence from the U.S. Patent and Trademark Office, such documents are delivered to the responsible attorney for the particular matter.

Attached hereto is a copy of the relevant pages from the docket report for matters having actions due on or about February 27, 2005. The docket report, attached hereto as Exhibit B is a true and accurate copy of the daily docket report run on or about February 25, 2005. Some of the names and titles or portions of the titles for entries relating to clients other than the owner of the above-described application have been redacted from these copies. A review of this docket report for the time period indicated shows that an entry for response to this Office Action is not found for the above-referenced application.

Applicant respectfully requests that the holding of abandonment be withdrawn according to 37 CFR § 1.181.

If you have any questions, please do not hesitate to contact Applicants' attorney below.

Respectfully submitted,

DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-22 are, drawn to a float switch device in a tank, classified in class 340, subclass 603+.
 - II. Claims 23-27 are, drawn to a float switch system for an aircraft classified in class 244, subclass 135.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(C)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because a float switch device may be used in a marine vessel or an automobile. The subcombination has separate utility such as detection system in an aircraft.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Art Unit: 2832

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
